- The student must insure all answers are legal as defined by the class syllabus.

Lab04 – Account Management

4.1. This section is five parts. Use the **names1** file and create logons for all the names in your OU. All the logon names must be a form of the name. All five answers must be in a single pdf file uploaded to the appropriate drop box. You must use the command line to generate your evidence.

    4.1.1. Provide evidence names 1-5 are in the section Alpha.

    4.1.2. Provide evidence names 6-10 are in the section Beta.

    4.1.3. Provide evidence names 11-15 are in the section Chi.

    4.1.4. Provide evidence all the logons will expire at the end of the semester.

    4.1.5. Create a change control document for this lab.

        4.1.5.1.   Identify who is making the changes

        4.1.5.2.   Provide contact information for the person making the changes

        4.1.5.3.   Identify when the changes will be made

        4.1.5.4.   Identify what the changes are

        4.1.5.5.   Identify the rollback procedure to undo the changes.

4.2. Create a document for each logon you created. The answer must be in a pdf file. You may put all your documentation in one pdf file if each document uses page breaks.

    4.2.1. The document will clearly identify the logons entire upn logon name.

    4.2.2. The document will clearly identify the person's initial password. Note, each logon must have a working unique initial password.

    4.2.3. The document will clearly provide directions for the person to correctly logon to the dragon.example.org tree.

    4.2.4. The document will clearly provide step by step (each click or return/enter is a step) how a logon will change passwords at any time.

4.3. This section is four parts. You must successfully complete all the listed simulators.

    4.3.1. Simulator 2.4.4 Assign Software

    4.3.2. Simulator 2.4.5 Deploy Software 1

    4.3.3. Simulator 2.4.6 Deploy Software 2

    4.3.4. Simulator 2.5.4 Configure Security Options

4.4. This section is four parts. You must successfully complete all the listed simulators.

    4.4.1. Simulator 2.6.6 Configure Account Policies

    4.4.2. Simulator 2.6.9 Create a Fine-grained Password Policy
